

Since putting my number on the do not call list my family is able to enjoy a peaceful meal with out the annoying interruption of a sales call..I am also able to sleep in on a Saturday with out a 7am wake up sales call from a telemarketer...I beg you please keep it the law the way that it is. If we want what the certain company is selling/offering we will contact them..There is no reason for them to contact us.

Thank you,
Christina Cage
